Dear Sir ,

Nice to e-meet you !!

As discussed with our HR Coordinator Ms Srishti, I am taking this immense pleasure of putting a proposal to your college for the purpose of providing job opportunities to your students.

About the Company:
Since our inception in 2017, SkillSanta's sole motto is to provide the best service while being the better version of ourselves every day. We primarily engage students in 360 degree development, which involves developing a candidate's technological and interpersonal dexterity and hence placing them in the best fit opportunities available in the industry. We take pride in securing perfection over the period and developing relations in the industry with over 100 companies in the country. We hope to keep developing and enriching our position in the industry.

JOB DETAILS: You'll be teaching coding to kids age 5-16 via LIVE online classes, either 1-on-1 or in small groups. This means you can teach remotely, from the comfort of your home, and at times that work best for your schedule. We will give you curriculum and projects to teach across topics like AI, 3D Game Development, Web Development, Mobile App Development, Python, or simple blocks-based / visual programming for the younger kids. We'll train you on the curriculum before you start teaching. **In coherence with our model of "earn and learn",we provide upskilling opportunities to keep you technically geared up for the current industry trends and job requirements.** **Currently, we have two upskilling programs running for React Native and Data Structures & Algorithms respectively. Further, we have the following programs lined up:** **1) Artificial Intelligence/ Machine Learning** **2) Big Data Analytics** **3) Software Development** **4) App development** **5) Cloud Computing** Want to make a dent in the education sector? Come join us, get trained by TFI and Google alums, and make a difference to thousands of students worldwide.	
Position	Coding Instructor
Qualifications	B.tech, B.E., M.tech, MCA & BCA (Special preference to CS & ECE)
Job Requirements	1. Patience, empathy and a strong teacher personality: past teaching experience is ideal. 2. Coding background experience 3. You like kids (primary, middle, high school) 4. Strong WIFI access: > 20 Mbps 5. A laptop with a clear webcam 6. Strong Knowledge of any one programming language(s) is mandatory
Compensation	INR 20,000 + Incentives
Open Positions	15-20
Interview Rounds	1. Exploratory 2. Assignment 3. 30-45 mins Demo Session
How to Apply:	https://forms.gle/XyLTF3w82KTNj6Ur7

Joining Benefit:

As an employee of SkillSanta, you will get a free membership subscription in which you will be eligible to learn all free courses.
Please go through the attached brochure & module for more information.

For further details, please reach us at **recruiter@skillsanta.com** or can contact our Talent Acquisition Team at **9198490607.**

Waiting for your cooperation and response.

LIST OF TECHNOLOGIES THAT WE COVER

- **MACHINE LEARNING**

An education in ML will surely be the next big leap in your career growth with more than **80,000 jobs** lying vacant in India.

- **ARTIFICIAL INTELLIGENCE**

Business value created by AI will reach **$3.9 trillion in 2022** with **30% growth rate.**

• BIG DATA ANALYSIS

Since 2014, every year **million jobs** at least added to the already vast Big Data jobs position.

• SOFTWARE DEVELOPMENT

India's developers count will surpass as that of US's in the years 2023, which implies that **more number of jobs in top companies with flexible and advanced work positions.**

• APP DEVELOPMENT

According to the survey by the EDC, mobile app development is an evergreeen industry with **800,000 job opportunities every year.**

• CLOUD COMPUTING

About a third of IT companies budget goes to cloud services, by 2022 there will be **1 million jobs in cloud computing.**

WHAT IS OUR JOB ASSURED PREMIUM MEMBERSHIP UPSKILLING PROGRAM ?

It designed to solve the problems of individuals related to their skill development and job opportunities. In this program candidates will :-

1. HAVE ACCESS TO UNLIMITED LEARNING.

2. UPSKILL IN LATEST TECHNOLOGIES.

3. HAVE UNLIMITED MATCHING JOB OPPORTUNITIES.

4. HAVE DEDICATED SUPPORT FROM SKILL SANTA TEAM.

5. CREATE REAL TIME BASED PRODUCTS UNDER INDUSTRY EXPERTS.

6. DEVELOP RELEVANT SOFT SKILLS.

OUR UPCOMING PROGRAMS

1.Artificial Intelligence/ Machine Learning Program

The program will be focused on deploying full lifecycle knowledge of the AI/ML technology by our industry experts. We will be delivering our classes which will start from beginner level moving towards expert level in a span of 8-12 weeks

Why AI/ML?
• Artificial intelligence is the next big thing in the market, almost every tech company is moving towards automation for almost every process.

• Also, from the point of gaining knowledge, AI and ML is a great option, as we have Ai technologies all around us, you can better understand their function and maybe you might build your own AI.

.
• Through AI/ML, you will be provided with flexibility to switch career paths immediately, as there is a huge unattended market of AI and ML in the industry.

2. Coding- Beginner to Pro Program

Our next program which is "Coding-beginner to pro", will be focused on providing programming expertise to every candidate. We will be delivering our classes which will start from beginner level moving towards expert level in a span of 8-12 weeek.

- India is one of the largest market for Coders, there is a stagnant growth in number of tech companies in the country, creating more and more job opportunities.

- Learning to code, opens up infinite number of job opportunities for the candidate.

- Learning to code can be very beneficiary when you are just starting your career in IT industry.

our coding batches will be commencing from next month

3. APP DEVELOPMENT PROGRAM

In this program we will teach candidates app development using React native with hands on experience on industry relevant projects. The duration will range from 8-12 weeks.

An estimated 268 billion apps are expected to be downloaded in APAC by 2017.

1 (That's billion with a "b.")
And APAC accounted for 63% of all app installs worldwide in 2015.

2 Marketers are experimenting with their own app experiences and investing to ensure that they're discovered; in the U.S. alone, marketers spent around $3 billion on app install advertising in 2015, an increase of 80% from 2014.

HOW WE WORK ?

1. COMPETENCY MAPPING

- Each candidate is assessed on areas of strength as well as weakness through our regular **CUSTOMIZED ASSESSMENT.**

- You will be put in the best learning batch customized specifically for you.

2. CUSTOMIZED LEARNING

- Curriculum curated to align with **industry requirements.**
- **Weekly classes** will be set up.
- **Customized assignments** will be given to **challange your skills.**
- Optimized content delivery in an easy way to grasp modules with hands on learning.

3. CREATE ACTUAL PRODUCTS WITH REAL TIME USE CASES

- Guidance by our industry experts in **developing products** on real **world problems** at scale.
- Real time app building like Uber , Ola etc

ASSURED JOB OPPORTUNITIES

- Job Alerts will be given throughout.
- Unlimited job opportunities will be provided.

DEDICATED MENTOR SUPPORT

- Writing and creating CVs
- Industry relevant resume
- Choosing which company to apply
- What are industry best practices
- Drafting personal statements
- Interview Techniques
- Priority Management Skills

OUR MODE OF DELIVERY?

- **Via instructor led live interactive classes.**
- **3-5 hours per week**

Why we prefer live classes?

- Learners have the **freedom to juggle their careers** because they aren't tied down to a fixed schedule.
- You can **attend the class from anywhere** without bothering to reach any location.
- Increased Instructor-Learner Time which gives **Access to Expertise**.
- You can watch them as **recorded videos in case you missed** some of your live lectures.
